Art Unit: 2652

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, 15-20 and 27, drawn to a magnetic tape apparatus, classified in class 360, subclass 132.
  - II. Claims 8-14 and 21-26, drawn to a magnetic disc cartridge apparatus (i.e. figure 19), classified in class 360, subclass 133.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a magnetic tape medium and tape cassette or cartridge. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
